VINTAGE LT-48™

COVERSTOCK

The new **3C** reactive coverstock describes our special low friction coverstock formulation. The **3C** reactive coverstock produces enhanced **control**, **consistency** and **carry** on a variety of lane conditions. This new cover will benefit slower ball speed and higher rev rate bowling styles on medium to light oil lane patterns.

CORE

The new **LT-48 Medium RG Symmetrical** core features an old school looking tall and smooth cylinder design. The new high volume core shape produces added length and improved versatility.

BALL MOTION

With its Royal Shine Finish, the **Vintage LT-48** skids naturally through the front, storing axis rotation for the backend to provide greater entry angle to the pocket and outstanding pin action.

REACTION SETUP

The **Vintage LT-48** can be drilled using the standard drilling techniques developed for symmetric core bowling balls.

LIGHTWEIGHT ENGINEERING

At Brunswick, the unique core shape of each individual ball is used for weights from 14 to 16 pounds. This approach to lightweight ball engineering provides bowlers with consistent ball reaction characteristics across this weight range. At 12 and 13 pounds, Brunswick uses a generic core shape with a RG-differential that is close enough to the 14 to 16 pound shape so the same drilling instructions can be used.

"I am very excited about the Vintage LT-48! This ball provides outstanding length allowing me to relax and roll the ball to the breakpoint without any concern for early hook."

-Johnny Petraglia

SPECIFICATIONS

Hook Potential	Low(10)	<input type="range" value="120"/>	High(260)
Length	Early(25)	<input type="range" value="190"/>	Long(235)
Breakpoint Shape	Smooth Arc(10)	<input type="range" value="110"/>	Angular(150)
RG Differential	Low(0)	<input type="range" value="0.038"/>	High(.060)
RG Average	Center Heavy(1)	<input type="range" value="5.5"/>	Cover Heavy(10)

- LT-48 Medium RG Symmetric Core
- 3C Solid Reactive Coverstock
- 1- Color, Black Solid
- Hardness: 73-75
- 500 Siaair Micro Pad; Royal Compound; Royal Shine
- Part No. 60-105607-93X
