

HYPER CELL SKID™

GUTS.

Forgiveness, check! Continuation, check! What else can we say about the time tested and approved Nucleus™ core. No matter how you drill it or throw it, you can be positive that this core will always get into a heavy roll.

Nucleus™ Core

	16lb	15lb	14lb	13lb	12lb
RG VALUE:	2.52	2.52	2.57	2.57	2.59
RG DIFFERENTIAL:	.048	.056	.046	.032	.029
	.017	.018	.015	.010	.008

GRIT.

In the development process it was a given we needed a pearl option in the HP4™ lineup. Having already covered the early and aggressive, we knew we needed a cover to produce more length which will transcend into more backend motion.

Factory Finish: *1500-grit Polished*

Flare Potential: *7+ Inches*

Coverstock: *73 MH™ Pearl Reactive*

Color: *Black / Gold / Violet*

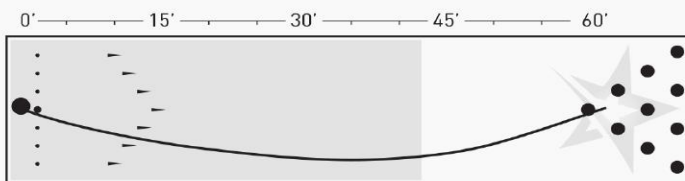

Hardness: *73-75 on D-Scale*

GRIME.

Coming out of the box with 1500-grit factory polish, the Hyper Cell Skid™ becomes yet another valuable option when the lanes start to transition. Making this ball a good go to option when the Hyper Cell™ & Sinister™ start to read the lanes a little too early.

Lane Condition - **Medium Heavy to Medium**

The ball path represents Roto Grip's bowling ball tester. Ask your pro shop professional how this ball will work for you.
