

“ The Sync is the most predictable asymmetrical ball I’ve ever thrown. It looks great, rolls perfect, and more importantly it gives me exactly what I need on a wide variety of conditions. You can’t afford not to have it in your bag. ”

**Mike Flanagan, Insidebowling.com**

“ Just when I think you guys can’t make a ball any stronger you outdo yourselves. In my opinion, this is the strongest overall ball motion you have produced to date. ”

**Britton Reider, Videoballreviews.com**

“ Every golfer needs a great set of clubs and every bowler should have a trustworthy arsenal of bowling balls. The Storm Sync is the driver in my bag! ” If you don’t have the Sync in your arsenal, plan on getting beat by someone that does! ”

**Rich Ferraro, Bowlers Zone Pro Shop**

“ This ball is early, smooth, strong, and continuous. Almost to the point of being unbelievable. I literally had a breakpoint maybe an arrow wide with the same result at the pins. In 20 shots I struck 18 times!!! ”

**Jeff Richgels, 11thframe.com**

# NANOTECHNOLOGY NRG COVERSTOCK

For the cover, we involved nanotechnology to create premium traction in oil. In fact, NRG creates 15% more surface roughness that only increase over time. You might remember how nanotechnology allows for peaks to be created on the sides of other peaks? Well, it's the real deal, and you'll see the difference the moment you step up on the lanes.

Starting at the center, Storm's technical team incorporated our strongest asymmetrical design to date, a shape with .028 intermediate differential, known as the G2™ core. Why G2? Because it's the second generation of our Shape-Lock™ HD core which powered the original Virtual Gravity™!

Based on proven principles, this new shape creates the optimum ball motion throughout the midlane, at the break point, and through the pins. Put it all together and you have one seriously powerful piece of equipment that is a MUST HAVE for every bowler looking to score better.

Coverstock: NRG™ Solid Reactive  
Weight Block: G2™ Core  
Ball Color: Cranberry/Tangerine/Black  
Factory Finish: 4000-grit Pad  
Durometer: 73-75  
Flare Potential: 6" Plus (High)  
Fragrance: Iced Cranberry  
Weights: 12-16 lbs.
